

Classic vs. P2 PWW Statistics Guide

For Partner Agencies

LANDING PAGE

The changes start on the landing page. Classic is on the left and P2 is on the right.

HOMEPAGE

The home page is very different. Classic is on the left and P2 is on the right. The order entry has moved, and the tabs are now centered instead of on the left.

STATISTICS

Your monthly statistics are due by the 5th of each month for the preceding month. For example, if you're entering your stats on August 5th, you should be reporting your final July numbers. Failure to report these statistics may impact your compliance with our network standards and your ability to place orders.

The Statistics Tab/Link is very different. In P2, just click on the word "Statistics".

The location of where to enter a new Statistic has changed and the label is different, "Enter Statistics" in PWW and "+Add New Agency Statistics in P2". Another big change for stats is that there is no longer a need to click a submit button. In P2, click on the green box in the upper right-hand corner that says, "+ Add New Agency Statistics".

Another big change for statistics, is that the action of choosing a month and year are no longer divided into 2 steps. In P2 just choose your month/year and click SAVE.

Once clicked the website will then take you through a set of questions that you will need to answer to complete the statistics entering process. Enter in your statistics like you did in the previous version. Here are snapshots of what that screen looks like:
